

Appendix D: T32 Program in T1D/BME Course Substitution Petition

Interdisciplinary T32 Training Program in Type 1 Diabetes and Biomedical Engineering Course Substitution Petition

All T32 Program in T1D/BME Trainees are required to take 6 courses which provide a foundation in autoimmunity and biomedical engineering research. With permission of the T32 program co-directors and T32 mentor, an equivalent course may be substituted.

Submit this completed form and a syllabus of equivalent course to the T32 Administrator, Christy Dupuis (popp@pathology.ufl.edu; 352-273-7982).

Date: _____
